EQUIPMENT MOUNTING | PADS

STANDARD PLASTIC PADS

E Lite's rugged design provides uniform and generous ribbing for optimum, self-leveling ground support without inserts. The result is a pad that is lightweight, but not too light. A subtle texture prevents unit slide and presents a classic appearance, which is enhanced by rounded edges and a concrete gray color. Each pad is molded with a size label and a symbol representing content of recycled material.

2" E Lite® Pads

The 2" thick E Lite® pad is the choice for plastic pads. Codes have moved toward requiring 3" pads, check local codes for your requirements.

An injection molded equipment pad created from 100% recycled materials to minimize environmental impact. It does not require any additional equipment for moving and handling. EcoPad™ is resistant to impact, ultra-violet degradation and weathering (virtually impervious to climatic variations), and will not crack, flake, or warp. Drillable to permit installation of refrigerant and electrical lines under and through the pad and to allow equipment to easily secure to the pad.

Pad Feet

Pad-Disc is a circular insert pad foot that provides additional surface area and support under the pad, preventing pads from excess settling in loose soil conditions. These inserts are designed to fit only specific sizes of E Lite® and EcoPad™ that have the circular grid pattern footprint.

PADS | EQUIPMENT MOUNTING

THE HEAT PUMP PAD™

The Heat Pump Pad™

Provides an effective base for heat pump equipment installed in snowy climates. Rather than a combination of a typical 2" (or 3") equipment pad and 6" heat pump risers, the Heat Pump Pad™ provides a full 8" of elevation in a simple square footprint. The star pattern of the integral risers allows for installation of equipment with different size footprints up to 36" x 36". Also included are eight anti-vibration pads uniquely designed to fit into the guide slots on the top of the integral risers. The base is sloped outward to allow for easy drainage of condensate or defrost cycle condensate when the outdoor coil is operating in heat pump mode. Nestable for efficient shipping, transportation, and warehousing. Injection molded from concrete gray, recycled polypropylene material, the Heat Pump Pad™ is environmentally friendly and designed to last longer than the equipment it supports. US Patent Number 7,891,635, and other patent(s) pending.

STANDARD CONCRETE PADS

3" UltraLite® Pads

A true concrete equipment pad at the weight of plastic (about 2.5 lbs. per square foot). UltraLite® is strengthened by miles of fiber in each square foot of fiber-cement coating. This fiber allows the pad to flex instead of cracking or breaking. The textured surface prevents the condensing unit or portable generator from sliding, and allows water drainage, while the engineered expanded polystyrene (EPS) core prevents warping and provides a solid bottom to resist settling. Unaffected by soil conditions, ultraviolet (UV) light, temperature extremes, and other weather conditions.

STANDARD CONCRETE PADS CONT'D

UltraLite® Earthquake Code Compliant Pads

Required nearly exclusively in Southern California, the UltraLite® pad is available for compliance with strict attachment provisions detailed in earthquake prone local building codes. UltraLite® earthquake code compliant pads are only available for sale in regions where local codes mandate installation of pads with these particular characteristics. Currently these locales include most of Southern California, portions of Washington, and portions of Oregon.

Concrete surface and superior performance at 20% the weight of conventional concrete pads. The cladding provides superior resistance to sun, moisture and freeze-thaw conditions; the engineered expanded polystyrene (EPS) core is virtually impervious to water, soil conditions, fungus and bacteria. Large CladLite® pads are further strengthened by continuous steel reinforcement throughout the cladding. CladLite® is code approved for installation throughout the U.S.

2" HunkLite® Pads

HunkLite® Pads are designed to support outdoor HVAC equipment such as condensers, heat pumps, and continuous heating devices such as water heaters and pool heaters. Made from 3000+ psi solid concrete with continuous steel reinforcement, this pad is extremely durable even in extreme outdoor conditions, while being up to 18% lighters than solid concrete. HunkLite pads are specifically designed for local markets where solid concrete is required. Available in both 2" and 3", depending on local building codes requirements.

THE HURRICANE PAD™ CONCRETE EQUIPMENT PADS

The Hurricane Pad™

Designed specifically for the hurricane prone regions of Florida and the Gulf Coast, The Hurricane Pad™ meets stringent local code requirements for wind resistance. Heavier than a normal concrete pad, this 4" pad provides sufficient weight to meet code. The Hurricane Pad meets the Florida Building Code Notice and can withstand winds up to 150 MPH. For certain taller equipment, The Hurricane T Class Pad™ is needed. Due to their extreme weight, standard freight terms for The Hurricane Pad only apply for shipment to FL, GA, & AL. All other shipments are shipped FOB Leesburg, FL.

The Hurricane T-Class Pad™

The Hurricane T Class Pad™ is even heavier than The Hurricane Pad™ and is designed to meet the higher wind loads of taller equipment. The taller the piece of equipment mounted to the pad, the greater the wind load on the pad. These heavier 4" pads provide sufficient weight to meet code for these taller condensing units. The Hurricane T-Class Pad meets the Florida Building Code Notice and can withstand winds up to 175 MPH. Due to their extreme weight, standard freight terms for The Hurricane Pad only apply for shipment to FL, GA, & AL. All other shipments are shipped FOB Leesburg, FL.

THE HURRICANE PAD™ CONCRETE EQUIPMENT PADS CONT'D

Pad Anchor System Kit

The DiversiTech® Pad Anchor Kit EP-TDK is used in hurricane prone areas to secure the condenser to The Hurricane Pad®. Angle brackets attach the condenser to The Hurricane Pad and anchor cables provide additional strength by securing it to the ground. Kit contains 2 galvanized angle brackets, 2 stainless steel anchor cables and anchors, and 16 #14 stainless steel self tapping screws. Drive rod EP-TDK-STAKE (sold separately) is needed to drive the anchors of the EP-TDK Pad Anchor Kit into the ground, and can be used for future installations.

HEAT PUMP RISERS

One Piece Heat Pump Risers

Sturdy and stable, DiversiTech's Heat Pump Riser provides the desired elevation for condensers, heat pumps, and air handlers. The one piece, heavy duty plastic unit is manufactured in three heights. Butyl mastic on the top and bottom guarantees no slipping and reduced vibration and noise.

EQUIPMENT MOUNTING | HANGING BRACKETS / MTG. ACCESS.

AIR HANDLER HANGING BRACKETS

Ductless Cassette Hangers

The Ductless Cassette Hangers are an innovative bracket design that is made of light-weight aluminum to provide quick and easy installation of ductless cassettes. Only two skus are compatible with most of the ductless cassettes on the market today. The built-in adjustability allows the alignment of the unit after it has been hung.

QSCH1000

ANTI-VIBRATION PADS

E.V.A. Anti-Vibration Pad

The latest generation in vibration dampening technology. The most effective vibration dampening pad available on the market. The EVA Pad was tested against other pads at four different vibration settings. In the most severe vibration extremes, the EVA Pad outperforms cork and rubber by a margin of greater than 3:1! This is due to the special composite foam center which is much more structurally sound than cork. It is not affected by oils or chemicals that can break down cork and is much more effective at vibration dampening than solid rubber. All this at a very competitive price. Designed to withstand 50 psi.
MP-4E

Iso-Cube Economy Anti-Vibration Pad

Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18" (46cm) pad is divided into eighty-one 2" (5cm) segments, each of which may be cut or torn to provide smaller pads. These 50 durometer pads will withstand a load of 180 psi with greater resiliency.

Bridle Rings

Zinc-Plated Bridle Rings are a good support for communication cables & other low voltage uses. They are available as Bolt-On, commonly used with Beam Clamps, and as Screw-In, commonly used with Wooden Beams. The Cable Support Bridle Rings with saddle are a cost-effective alternative to expensive cable tray. Their wide surface saddle provides support without stress for Category 5, fiber-optic, and other sensitive voice/Datacom cables.

J-Hooks

2" J Hooks for Datacom applications are a cost-effective alternative to expensive cable tray. Their wide base provides support without stress for Cat5, fiber-optic and other sensitive voice/Datacom cables. The continuous wide base radius supports the natural curve of cables and ensures eliminating kinks & bending. A cable wire retainer is supplied with every part. Its unique design eliminates the need for an attachment plate when stacked. These J-Hooks can be attached to a wide variety of structures using beam clamps, clips and many other components.

CLEAR VINYL TUBING

Gorilla Tube® Clear Vinyl Tubing

Applications include: air conditioning and refrigeration condensate drains, condensate pump discharge lines, and humidifier overflows.
Several sizes from 1/4" to 1" diameter. Non-toxic clear vinyl chloride.
Select Gorilla Tube® over standard clear vinyl tube because:
- Extra rigid design resists crimping and kinking due to durometer value of 80 (Shore A) and thicker wall
- Maximum service temperature 140°F (60°C)
- Better performance in cold weather climates.

DUCTLESS DRAIN LINE TUBING AND FITTINGS

Smooth Drain for Ductless Systems

The Asurity® Smooth Drain Line, 230-DL16-S for ductless systems is a unique non-kinking drain line for mini-split units, with a smooth internal surface. The smooth internal surface minimizes trapped water that can promote biological growth, minimizing the possibility of blockages and foul odor formation. This 16mm diameter drain line is used for mini-split installations. Available in 98 feet lengths.

How to sell DEVCO® products

DEVCO® merchandising displays are an easy and attractive way to showcase a variety of DEVCO® products in your store. Offered in three different versions, each display rack includes everything you need to create extra sales for your business.

Easy to Display

DEVCO® provides turnkey merchandising solutions for wholesale distribution. Attractive, easy to set-up merchandising displays provide a great way to highlight DEVCO® products and make it easy for customers to find what they need. The point of sale display merchandises the products, enabling the distributor to add additional sales.

The products merchandised on the carousel are impulse buy items. The items are packed so they cost the contractor only a few dollars, and most are less than $10 each.

Easy to Profit

DEVCO® displays provide a typical distributor branch with easy add-on sales that build profits. Each display can generate significant sales and margins for the store while providing contractors with the parts they need to finish the job. These self-service displays are a great way to increase revenue with minimal effort.
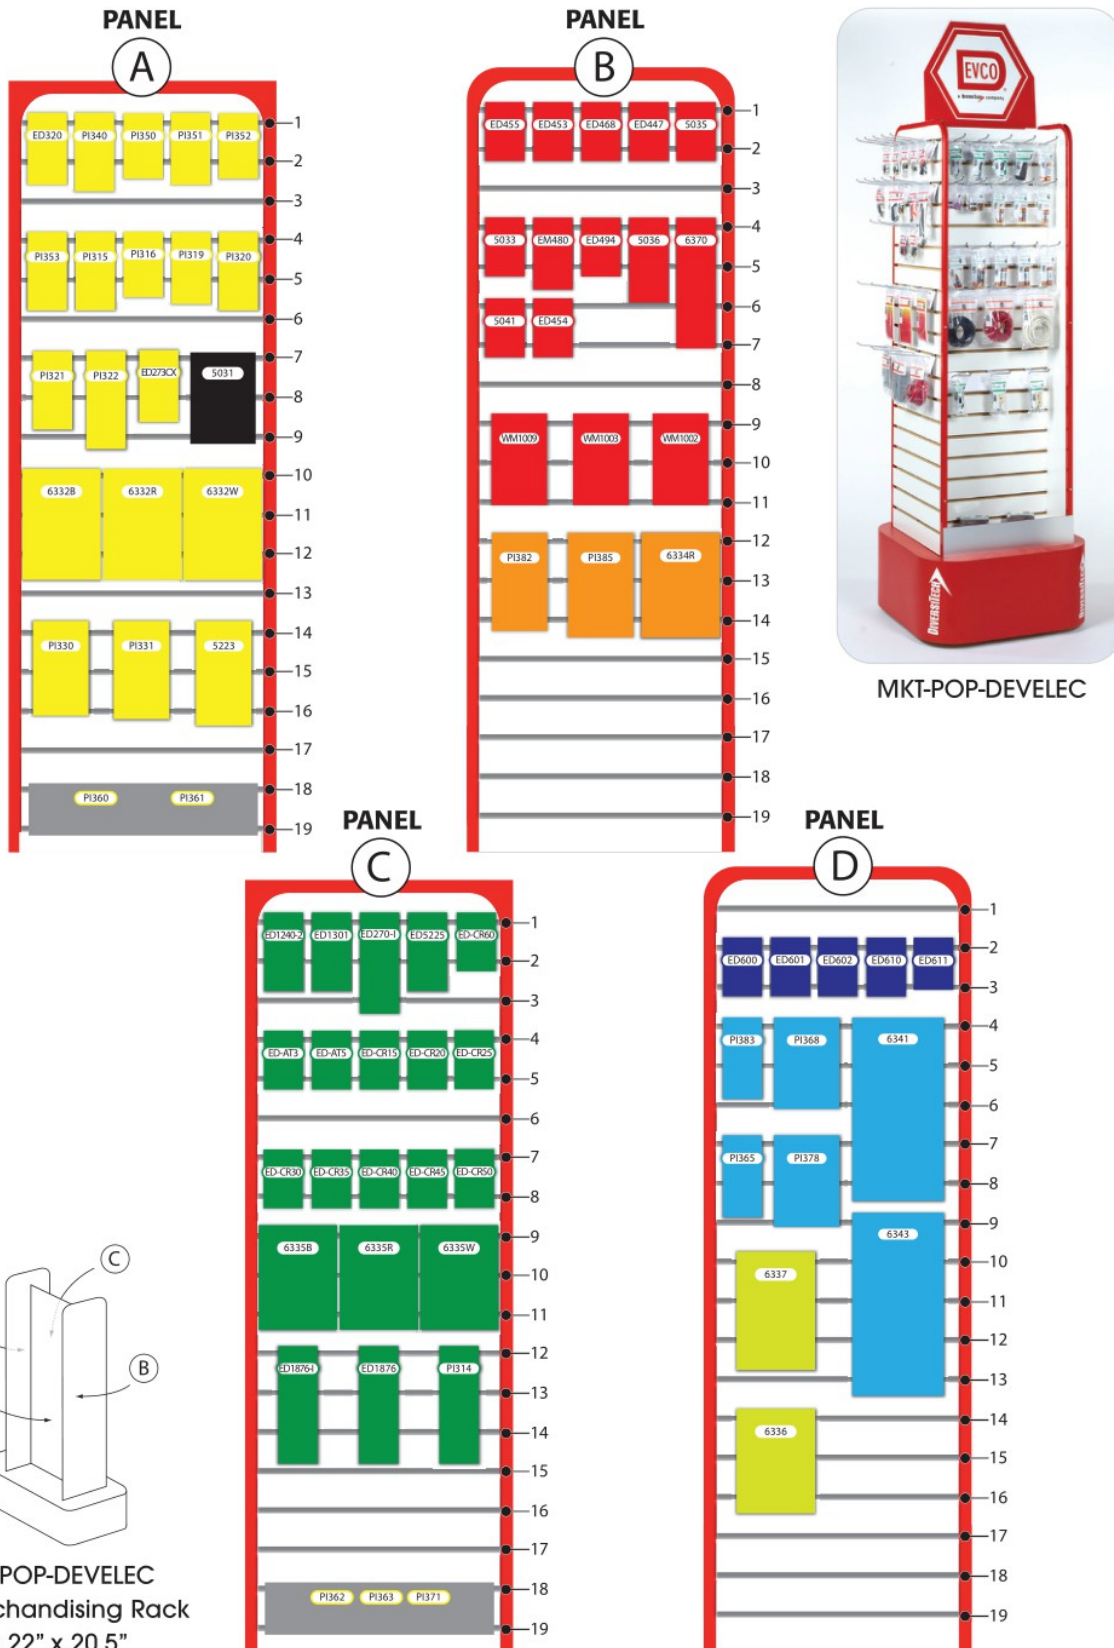

The Perfect Plan

Each DEVCO® Merchandising display comes with a complete plan-o-gram to make merchandising it simple and fast. And there are three different versions available so you can choose the display that's right for your business and customers.

And when you purchase the DEVCO® products to fill it up, the merchandising rack is **loaned free of charge. Special ordering requirements. Contact DiversiTech representative for specifics.**
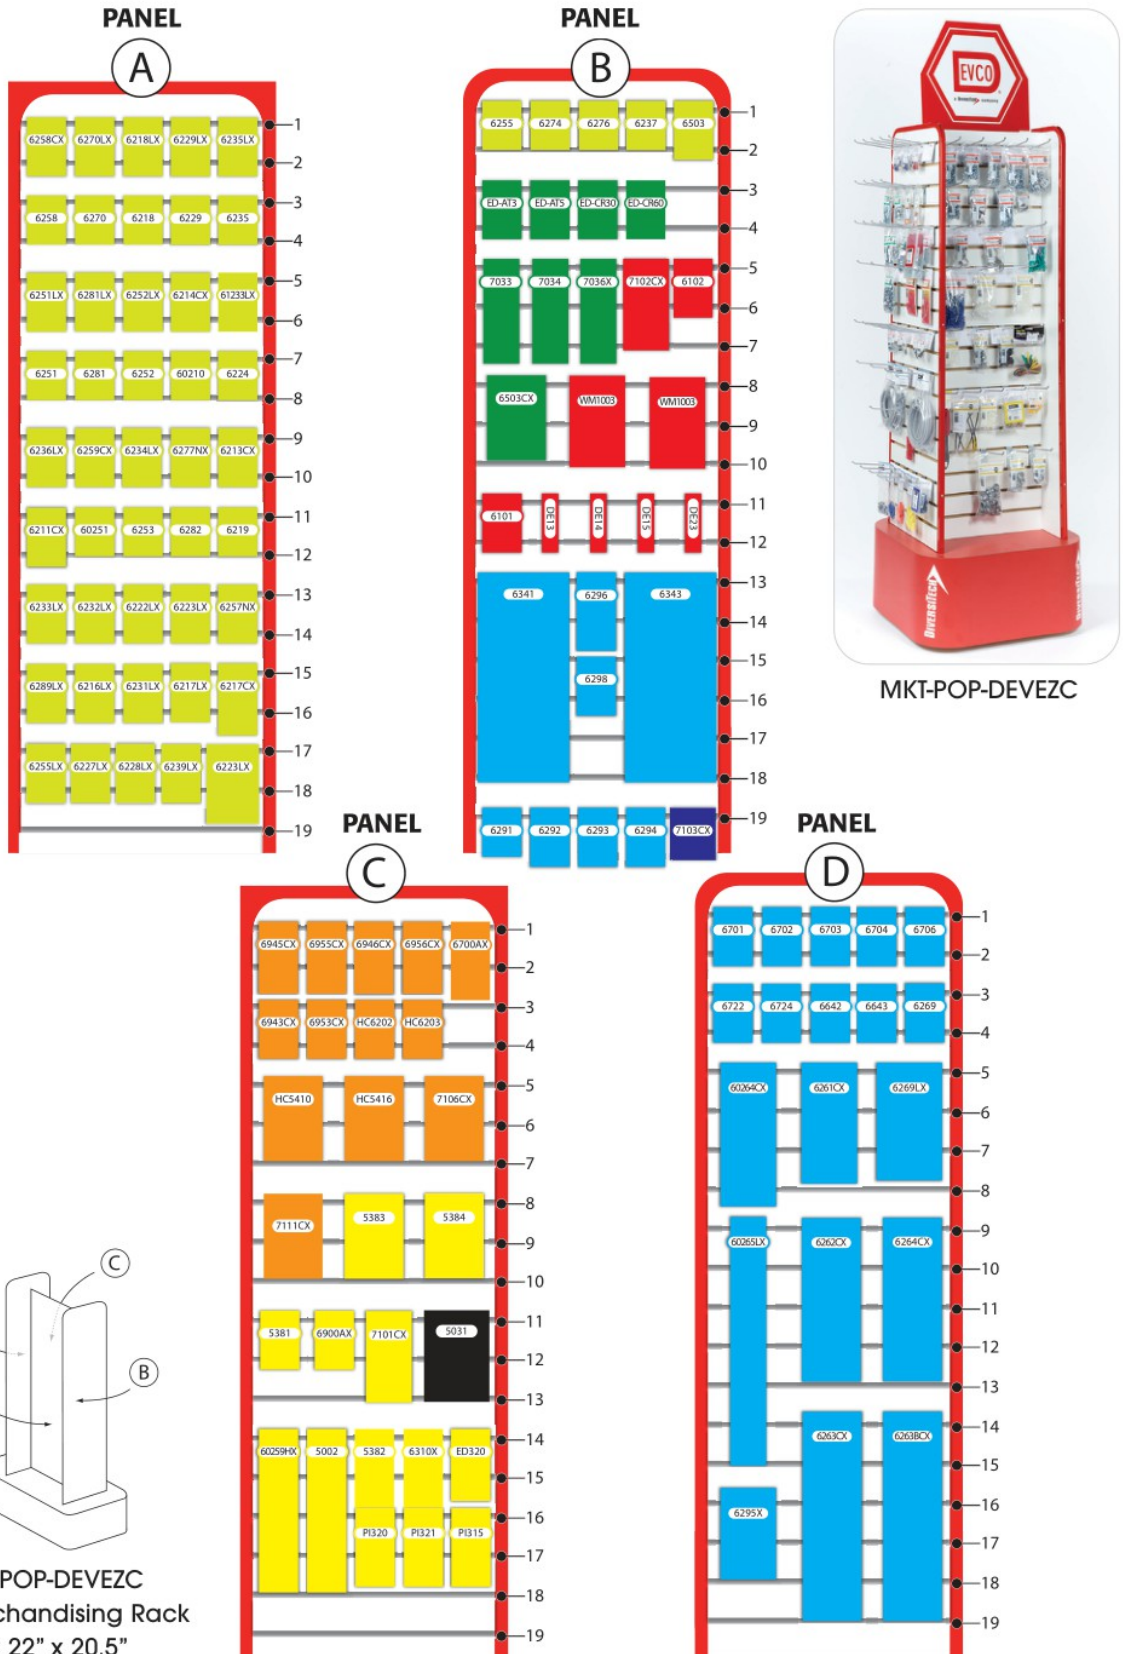

Display Rack	Featured Products
EZC	Solderless terminals, ground connectors, fasteners, anchor kits, cable ties, washers, hex nuts, cable clamps, sheet metal screws and hose clamps
Electrical	Ground adaptors, outlets, boxes, bushings, cable connectors, extension rings, indicator lights, plugs and connectors, receptacles, reducing washers, toggle switches and hook up wire
Combo	Solderless terminals, insulated rings, ground adaptors, covers, reducing washers, plugs and connectors, hook up wire, fasteners, hex nuts and self drilling screws

Flag Female Compressor Terminals

Also known as hermetic header terminals, these non-insulated terminals are designed with a larger distance between the "rolls" to allow for the rod in hermetic header applications. The increased distance allows the rod to slip in between them. Parts 6258 and 6259 are notched for bending. The notches are cut between the slip-on portion and the conductor barrel and enable the back of the slip-on portion to be folded against the conductor barrel after the wire connection is made. This terminal features insulation grip.

Evergreen® CM ECM Motors

The Evergreen CM is made with the same field-proven, high-efficiency ECM technology that has been used for more than 20 years in new HVAC equipment. It features flexible control methods to help the installer balance airflow in HVAC systems such as VAV (Variable Air Volume) boxes and Packaged HVAC systems. The Evergreen CM is designed as a direct replacement for OEM (Original Equipment Manufacturer) Genteq model X13 (Constant Torque ECM) or as a field replacement for existing PSC (Permanent Split Capacitor) motors.

Evergreen®

Evergreen® EM ECM Motors

The Evergreen EM was designed to replace direct-drive blower motors in residential and light commercial indoor furnaces, air handlers and package systems that were designed with a standard ECM motor, such as X13 or equivalent competitor model. It can also be used to retrofit PSC motors in commercial building series VAV boxes and packaged heat pump systems. It is NOT intended to replace premium ECM constant airflow products, such as EON, 2.3, 3.0 and 2.5.

DIVERSITECH ELECTRICAL DISCONNECTS

Disconnects—Metal Case

Fused model designed with fuses in pull out handle for easy replacement. The line, load, and ground terminals are aligned for ease of wiring. The fused models have indicator lights for blown fuses. This is rain tight and sleet resistant. The UL Listed number is IRF9, NEMA Type 3R and the US Patent is 6,630,637.

DDS-60

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DDS-30	30A Fusible Disconnect Switch	EA	10
DDS-60	60A Fusible Disconnect Switch	EA	10
DDS-60U	60A Non-Fusible Disconnect Switch	EA	10

Disconnects—Non-Metallic Case

This 60 amp non-fusible disconnect is housed in a lightweight, non-metallic case. It features a side opening door with more than 180° access, full dead front, and a locking tab.

750-P60NF

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
750-P60NF	60A Non Fusible Disconnect Switch, Non-Metallic Case, Plastic	EA	10

3 Pole Switch for Mini-Splits

Three-pole, 30 Amp, 600 Volt rated disconnect switch provides safe, reliable manual ON/OFF switching control for Mini-splits and HVAC systems. This switch meets the local code requirements of breaking both the power lines (L1 and L2) and the communication line of the mini-split's indoor unit for service.

755-303SW

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
755-303SW	3 Pole Switch for Mini-Splits	EA	1

Low Profile Disconnects—Metal Case

This low profile disconnect switch is a slightly smaller design than that of the standard DiversiTech disconnects. This has a side opening door with a full dead front. This is rain tight and sleet resistant. The UL Listed number is IRF9, NEMA Type 3R.

HARD START KITS

Torque Plus—Hard Start Kits

Totally solid state, our DST 5 is just right for all permanent split capacitor (PSC) compressors from 1/2 to 10 H.P. It can be used on units that operate on 120 through 288 Volts. The DST 6 offers a larger capacitor for severely hard to start compressors. The DST 6 can be used on all PSC single phase compressors from 1 1/2 to 10 H.P. A unique combination of relay and safety timer. The capacitor is automatically disconnected in 0.5 seconds if the compressor fails to start.

DST-6	Torque Plus – 500% Torque Multiplier	EA	1

DiversiTech Hard Start Kits

DiversiTech hard start kits reduce contractor call backs by boosting the starting capacitor for a compressor. This prevents home brownouts and improves homeowner satisfaction with your service. DiversiTech's hard start kits feature a potential relay that disconnects the start capacitor from the circuit at exactly the moment it is no longer needed to boost the compressor. This results in a precision compressor start even under hard starting conditions. Replaces the Kickstart KS-1 and the 5-n-1 kit.

TIME DELAYS

Adjustable Delay on Break Timer

ADB-1

Adjusts from 6 seconds to 8 minutes. Spin-proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.0 Amps. Two wire hookup for easy installation. Solid state with quick disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for USA and Canada. Works with anticipator type thermostats.

HOW IT WORKS: Immediately upon application of power, the Delay on Break timer enables circuit operation. Once power is interrupted, the circuit opens for the time set on the dial. After the time period elapses, the circuit closes, allowing the protected motor or compressor to start. For typical HVAC applications, the operation of the timer is transparent and will go unnoticed.

ADB-2

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
ADB-1	Adjustable Delay on Break	EA	1
ADB-2	Adjustable Delay on Break w/Wire Leads	EA	1

Adjustable Delay on Make Timer

ADM-1

Ideal for random starting of multiple units. Adjusts from 6 seconds to 8 minutes. Spin proof knob. Works with 24, 120 or 240 VAC control circuits. Supports up to 1.0 Amps. Two wire hookup for easy installation. Solid state with quick-disconnect terminals. Mounts with one self-tapping screw. Conformal coated circuitry protects against moisture and shock. UR recognized for US and Canada. Works with anticipator type thermostats.

HOW IT WORKS: These timers delay circuit closure upon application of power. Only after the set time period elapses and power remains ON will the circuit close, allowing the protected motor or compressor to start. For typical HVAC installations, timers are adjusted to random times to prevent power circuit overloads, thus are often called random start timers.

ADM-2

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
ADM-1	Adjustable Delay on Make	EA	1
ADM-2	Adjustable Delay on Make w/Wire Leads	EA	1

MONITORS

Digital Three Phase Line Voltage Monitor

Offers continuous protection against voltage anomalies which can damage compressors, motors and other sensitive electrically operated devices.
PROTECTION: Loss of Phase, Phase Reversal, Voltage Imbalance, Low Voltage, High Voltage
DISPLAY: Large custom LCD display indicates all operating conditions at a glance. Three large sets of digits provide easy system troubleshooting.
VOLTMETER: Three independent voltmeters read both line and contactor load (backside) voltages.
MONITORED VOLTAGE: 160 to 600 Volts 50-60 Hz.
POWER SUPPLY: Power for the WPC-500 is automatically derived from any active phase. System operation is not dependent on the control voltage or a specific phase for power.
CONTROL VOLTAGE: 19-277 VAC. Anticipator load is provided for operation with 24 volt electronic and mechanical thermostats.
OPERATING VOLTAGE SET POINT: 175 to 650 VAC. Digitally adjustable in one volt increments.
VOLTAGE TRIP POINT: Adjustable in 1% increments between 6% and 18% of selected operating voltage. Restart voltage set point (hysterisis) fixed at cutout voltage + 3%.
VOLTAGE SYMMETRY: Adjustable imbalance trip point from 2% to 25% of selected operating voltage.
RESPONSE TIMES:
Phase Loss/Reversal: 100 mS max.
Imbalance: Adjustable Response Timer
Over or Under Voltage: Adjustable Response Timer
LOCKOUT DELAY TIMER: Fully adjustable 0 to 720 Seconds (0 to 12 minutes). Digital display shows re- maining time and user set points.
SEQUENTIAL START TIMER: 0 to 30 seconds in one second increments.
RESPONSE TIMER: 0.1 to 20 Seconds. Digital display shows remaining time and user set points.
MEMORY: Up to 25 past fault conditions are stored for later retrieval and analysis. The faults may be displayed or cleared by the front panel buttons.

DTP-3

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
DTP-3	Digital 3-Phase Motor Protector	EA	1

Digital Single Phase Line Voltage Monitor

Automatic voltage monitor and control system. Continuously measures incoming line voltage, allowing detection of any voltage outside the tolerances that you set. If these limits are exceeded, the response timer begins counting. You may also set response time – a short time for a quick response or a long time to avoid nuisance tripping. If the voltage remains outside the tolerance after the time has elapsed, the DSP-1 will turn off its output relay and protect your device. While output is off, an additional delay timer activates to avoid rapid restarts.

DSP-1

FEATURES:
Digital voltmeter displays instantaneous line voltage;
Automatic voltage tester adjusts from 90 to 300 volts;
Adjustable response timer (0.1 to 10 sec.) prevents nuisance tripping;
Adjustable delay timer (1 to 720 sec.) prevents rapid restarts;
Digital display makes for easy viewing and operation
SPECIFICATIONS:

Voltmeter:	70 to 325 Volts
Voltage Set Point:	90 to 300 Volts
Tolerance Limits:	6 to 18%
Response Timer:	0.1 to 10 seconds
Delay Timer:	1 to 720 seconds
Output Relay:	10 Amps, 250 VAC resistive, single-pole/double-throw
Control Input:	18 to 250 VAC with anticipator load for 24 volt thermostats

ELECTRICAL TAPES

### 7 Mil Professional Grade Electrical Tape

60110

- 3/4" x 66' x 7 Mil
- All Weather Professional Grade Splicing Tape used as primary insulation up to 600V and as a protective outer jacket up to 69KV
- Flame retardant and weather resistant
- Excellent cold weather resistant properties -1°F to 221°F (-18°C to 105°C)
- High dielectric strength, high adhesion and shear
- Highly elastic polymeric vinyl backing - excellent elongation
- Resistant to acids, alkalis, chemicals, oils, moisture and corrosion
- UL 510 and CSA 22.2 approved
- ASTM-D-3005 HH-I-595C
- Lead free

Glass Cloth, Moisture Sealing, and Economy Electrical Tapes

This is a woven glass cloth tape designed to operate in 600 volt dry applications, requiring high mechanical strength and resistance to high temperatures. The glass cloth is specially treated and prepared to provide corrosion free protection. It will not shrink, rot, or burn and has a high tensile strength. It contains pressure sensitive thermosetting adhesive which performs as Class B temperature (266 degrees F / 130 degrees C). Provides hear stable insulation for hot spot applications Highlight: Color White. Width 1/2in. Length 66 ft. Thickness 7 mil. Tensile Strength (2) 150 lb. /in. Material Glass Cloth.

TERMINALS, CONNECTORS

Compressor Repair Kit

Finally, a product that simplifies the repair of burned or damaged spade terminals when reconnecting or replacing a compressor. Fits both non burned and burned terminals. Connects to the compressor via precision brass cylinders that fit over the terminals and connect with stainless steel set screws. Wires are permanently attached. Standard factory 600V, 65 strand machine wire. Easy to install and guaranteed for the life of the compressor.

TLC-3-8

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE

TLC-3-10	3 Wire, 10 Gauge Connection Kit	EA	1
TLC-3-12	3 Wire, 12 Gauge Connection Kit	EA	1

Replacement Compressor Leads

Extreme heat within compressors typically causes failure of wiring insulation. This can cause corrosion to the inner strands of copper within the wire used for compressor hook up. This reduces the power flow to the compressor causing the unit to overheat and can prevent the compressor from starting. A MINIMUM of 12in. of wire must be removed. The DiversiTech Replacement Compressor Leads are ideal for replacing this corroded wiring. 24in. leads also available for replacing wire all the way to the contactor and capacitor.

Manual Reset Fire Stat

This bi metal switch is used as a manual reset. When temperature condition is met, the device opens. The manual reset can only be reset after proper cool down of the switch. The HMR 130 is a popular fire stat in ducted air distribution systems. Should temperatures in the duct exceed 130 degree F, the switch opens, shutting down the whole system so no fire or smoke can be spread by the fan.

FLARING TOOLS

SPIN® Tools

SPIN® Flaring and Swaging bits deliver the best flares and swages in seconds! Gives you consistent sizes on flares and swages, every time. Using an innovative technology, SPIN® tools are designed to quickly flare or swage virtually any copper or aluminum tube. Perfect for mini-splits and ductless A/C copper and aluminum tubes, it keeps the tubing thickness for high pressure refrigerant fluids such as R410A, R22, etc. Available in sets from 4 up to 6 pieces for HVAC/R applications; and 3 pieces for plumbing applications.

Orbital Flare

The hilmor Orbital Flare was designed to produce quality flares – again and again. A tube-stop arrow allows precise positioning and placement so you can keep that nickel in your pocket. Plus, a clutch mechanism stops the flare to eliminate cracking the tube.

Features & Benefits
Precise Flares, Every Time: An off-center mounted cone spins on an axis to effectively produce quality flares.
No Cracked Tubes: A clutch mechanism stops the flaring when the job is done.
Simple Setup: A clothespin-inspired, spring-loaded block grips the tube securely.
Easy to Position: A tube-stop arrow slides to set correct height and positioning while ball detents allow for easy flaring cone alignment.
Extra Confidence: A leak-proof blank-off valve isolates the pump from the system for accurate vacuum readings and easy oil change without losing a vacuum.

Orbital Flare Kit with Tubing Cutter and Deburring Tool

The hilmor Orbital Flare Kit comes with everything you need to produce quality flares – again and again. The kit includes hilmor's Large Diameter Tubing Cutter (item #1885384) for easy kink-free cuts, a Pocket Size Deburring Tool (item #1891258) to smooth things over and, of course, our industry-leading Orbital Flare (item #1838952).

Features & Benefits
Storage: Kit included for convenient storage.
Precise Flares, Every Time: An off-center mounted cone spins on an axis to effectively produce quality flares.
No Cracked Tubes: A clutch mechanism stops the flaring when the job is done.
Accurate Cutting: A unique, four-roller tracking system keeps the tube from threading.
Professional Deburring: Conveniently deburr tubes and fittings 1/4" nominal and larger.

FLARING TOOLS CONT'D

Large Basic Flare

The hilmor Large Basic Flare has all the advantages of hilmor flaring tools with the bulked-up size to handle 3/4" to 1-1/8" tubes. And it can fit into spaces other flaring and swaging tools can't.

Features & Benefits
Durable: The cast steel yoke and hardened flaring bar are made to be knocked around.
Control: Steel wing nuts make it easy to hold pipe secure.
Quality Flares: An extra-long handle provides more leverage and self-centers for a consistent quality flare.

1838955

hilmor

Quick-Engage Flare and Swage Kit

Extra appendages are hard to come by these days. Instead, opt for the all-new hilmor Quick-Engage Flare and Swage. Simple setup, precise positioning and a secure hold allow you to quickly conquer and move on to the next job.

Features & Benefits
Less Work: Allows for faster flares and swages because it requires fewer rotations.
Simple Setup: A clothespin-inspired, spring-loaded block grips the tube securely.
Easy to Position: A tube-stop arrow slides to set correct height and positioning, while ball detents allow for easy flaring cone alignment.

SWAGING TOOLS

Compact Swage Tool Kit

The hilmor Compact Swage Tool is taking swaging to the next level. It has the power to swage 2-1/8" tubing and the control to swage 1/4" tubing without a crack. With its small, pistol-shape design, it can fit in the smallest of spaces. This patented design can reduce on-the-job fatigue with its easy setup and one-handed operation made possible by an innovative hydraulic mechanism and release button. It's even equipped for multiple sizes.

Features & Benefits
Picture-Perfect Swaging: Simply select the correct head, place it on the tool and make a quality swage.
Less Effort, More Control: The power to swage 7/8" tubing and the control to swage 3/8" without splitting the tube.
Small Space Capable: A compact design allows it to be used even in cramped spaces.
One-handed Operation: The lever mechanism and release button allow for one-handed swaging without the fatigue.

4-Valve Aluminum Manifold

We know that manifolds are your lifeline. So, when we decided to retool the features and design, we were meticulous down to the last detail.

Features & Benefits

Extra Confidence:	Built to last with a forged aluminum body. Designed to be leak-resistant with replaceable stainless steel valve seats, SAE-style O-rings and a securely seated, large sight glass.
Quick on the Job:	Get faster vacuum pulls with a true 3/8" bore throughout the valve.
Comfortable Grip:	A rubberized handle makes it easier to use in wet and dirty environments.
Glows in the Dark:	Light-activated paint illuminates, so you won't be left in the dark.
Built-in Pressure Reminder:	A pressure reminder allows you to set the pressure ring and reference it later.

Product Specifications

Accuracy:	Class 1 - 1% Accuracy (full scale)
Gauge Connection Type:	1/8" NPT Male Fitting
Valve Type:	Double O-ring Piston Style
Valve Seat (Orifice):	Replaceable Stainless Steel (SAE-style straight thread with O-ring)
Sight Glass:	Bonded steel with SAE-style straight thread with O-ring
Vacuum Port:	3/8" full bore (quantity 1)
Charge Ports:	1/4" (quantity 3)

MANIFOLD GAUGES

Manifold Gauge

DiversiTech's MG-1 Manifold Gauge provides the technician with a precision diagnostic and monitoring analog gauge set complete with hoses.
The Manifold Gauge and Hose Set includes:
• 2 valve brass manifold
• 5' long high pressure hose set
• For use with the following refrigerants:
  - R-410A
  - R-22
  - R-407C
• Detailed gauge readings in PSI and °F

VALVE CORE REMOVAL

Valve Core Removal Tool

Valve Core Removal Tools are designed to make work more efficient, but there's nothing efficient about losing tools or equipment. The hilmor Valve Core Removal Tool has a built-in rare earth magnet on the back of the plunger for convenient jobsite storage. After removing the core for evacuation or change-out, the plunger and valve core can be stored on the side of the unit. The tool comes in both 1/4" and 5/16" sizes. The hilmor Valve Core Removal Tool uses a spring gripper, as opposed to an O-ring to grab valve cores, increasing the life of the tool.

1947967   1947968

hilmor

Features & Benefits

Jobsite Storage: Built-in rare-earth magnet for convenient plunger storage, minimizing lost parts on the job.
Superior Versatility: Vacuum tested to 20 microns and tested to 800 PSI working pressure.
Reliable Core Gripper: Securely and confidently remove valve cores for unrestricted flow.
Vacuum Gauge Port: 1/4" side flare to easily connect a vacuum gauge.

Product Specifications

Max. Allowable Working Pressure: 800 PSI

GENERAL TOOLS

Hydrogauge

Economical Pressure measurements.
• Replaces ordinary U-tube manometers
• Measures gas pressure easily and efficiently
• Direct reading, no plus or minus readings to add together as in old fashioned U-tubes
• Fills like a glass of water, no more air bubbles
• Strong magnet for mounting
• Heavy-duty construction
• Made of industrial grade, flexible PVC plastic
• Lightweight; Easy to use
• 6-HG15 water column height: 15"
• Plastic: 30" to 36" of industrial grade flexible plastic
• Hose fitting: All brass

Gas Pressure Test Kit

Rugged, Heavy Duty Field Use.
• Measure Natural gas (methane) or LP gas pressure across appliance manifolds.
• Test gas stoves, furnaces, dryers and other gas appliances. Can also be used for other non-corrosive gases.
• Large 2" sensitive diaphragm gauge is calibrated in inches of water column, also shows ounces per square inch
• Magnified lens
• Easier to use than a manometer
• Range: 0 to 35 inches of water column (in. H_2O) 0 to 20 ounces per square inch (oz./in²)

Includes: 2" sensitive diaphragm gauge; 3' of rubber tubing; brass fitting for quick connection to the appliance manifold 3/8" NPT; molded hard case.

TOOLS | SERVICE TOOLS

GENERAL TOOLS

007 Control Checker

A lifetime tool for monitoring and checking safety controls and operating controls. One unit for all voltages 24-460 VAC or DC without switching dials or meters. Compact, 4 oz, reliable. Saves troubleshooting. For normally closed controls, 007 connects in parallel with safety control. When the safety control opens in response to a problem in the system, 007 red LED turns on and remains on until reset manually. With intermittent problem, the LED remains on indicating the control is open. For operating controls, 007 verifies the status of all types indicating if there is power to the holding coil, the NC contact is open or closed, the thermostat contacts are open or closed, there is power to the contactor or starting holding coil, the overloads are open or closed, or there is a bad connection either on control or power side. NOTE: May use with lockout relays. Features battery check and reset switch. Includes 9-volt battery. 007 may be used over and over.

LC500	Liquid Charger	4.4" x 1" x 1"	0.65 lbs.	EA	1

Tattle-Tale Control Monitor

Identifies open controls in seconds. A single use monitoring device for determining which, safety control has opened in response to a malfunction. Saves wasted hours tracing a safety control shutdown, even if intermittent. A quick, inexpensive way to visually spot where the problem is. Simply install in parallel with each safety control. When a control opens, the red indicator flag pops up. You will know immediately which area of the system is experiencing problems. Disposable, safe, simple to use, and pocket sized. Monitors safety controls, fuses, overload relays, motor protectors, freeze controls, limit controls, safety switches, fusible links, or steam control. CAUTION: Not to be used with lockout relays, use TC-007.

REPLACMENT - RECOVERY CYLINDERS

Refrigerant Recovery Cylinders

Rehvac aluminum nitrogen cylinders from DiversiTech are commonly used in the HVAC industry for line cleaning and purging, pressure testing and braze purging. Made in the USA.

CATALOG NO.	DESCRIPTION	DOT CLASS	3/4" NPT PLUG	FLOAT SWITCH	WATER CAP.	TARE WT.	UOM	ORDER MULTIPLE
02033	30 lb.	4BA400	YES	NO	26.2 lbs.	17 lbs.	EA	1
02053	50 lb.	4BA400	YES	NO	47.7 lbs.	28 lbs.	EA	1
02100	100 lb.	4BW400	NO	NO	123 lbs.	48 lbs.	EA	1
02255	250 lb.	4BW260	YES	NO	239 lbs.	85 lbs.	EA	1

02053   02100

Caution: Never overfill cylinders. Maximum refrigerant capacity is limited to 80% of the water capacity of the cylinder in lbs. (see table above). DOT requires cylinders to be retested every five years. Some recovery equipment uses weight scales to cut off refrigerant fill at 80% of capacity. Be sure cylinder tare weight is correct for this type of equipment.

DOT Classification Example: 4BA400: 400 psi working pressure; 800 psi test pressure (double the working pressure); 1,600 psi minimum burst pressure (double the test pressure). Pressure relief/safety valve is set to release at between 75-100% of the test pressure. For example, in the 4BA400 tanks which have a 800 psi test pressure, the relief valve opens at between 600 psi and 800 psi.

CoilShot® Condenser Coil-Cleaning Tool

Tablet-based system saves wasted coil cleaner and space over bulky coil cleaner bottles. One pack of tablets replaces an entire case of coil cleaner. Use with CoilShot wand for best results - to help get behind coils for superior cleaning every time. CoilShot attaches to a standard garden hose, uses pre-measured tablets and switches from foaming cleaner to water with easy mixing valve. 2 tables equals 1 gallon of cleaner.

Dry Steam Coil and Surface Cleaner

The SC-VSC-7000 steam cleaner is your answer to cleaning dirty, greasy coils and other surfaces without harsh, damaging chemicals. It works excellent on air handlers, mini-splits, condensers, exhaust vents, oily commercial kitchen ducts and more. The power of steam combined with 65 psi pressure goes deep into coils, cracks, and crevices, lifting and removing stubborn dirt and soils. The small and portable unit is lightweight and comes complete with a hose and full accessory kit to clean even the toughest to reach areas. It sanitizes surfaces killing bacteria, fungus, mold, mildew and other microorganisms on contact leaving coils and other surfaces clean and sparkling! With it's easy-to-fill tank, quality stainless steel boiler, strong 1500 Watt power and full accessory kit, it offers the complete solution for cleaning heavily soiled commercial equipment.

Fast Connect Magnetic Nut Driver Set

The nut driver has evolved. The set features a 3" and 6" hilmor Fast Connect Magnetic Nut Driver. The name alone says it all. They're lightning fast and allow for one-handed quick release for fast and easy bit changes.

Features & Benefits
Simple Setup: A quick-change mechanism allows for easy change-out of standard bits with 1/4" hex shank.
Added Versatility: Set includes both stubby and 4" handles, ensuring you have the right size tool for the job.
Secure Hold: A rare-earth magnet helps maintain a secure hold to keep fasteners firmly in place.
Reduced Stripping: Designed to drive fasteners on the side instead of on the corners, reducing breakage and stripping.
Quick Identification: A color-coded band makes size identification simple.
Convenient Storage: Soft storage pouch with additional bit storage keeps everything organized.

UTILITY KNIVES

Snap-Off Utility Knife

535-42047

Lightweight and easy to use, this Utility Knife is an ideal general-purpose knife for the shop, garage, and around the house. The fully retractable blades lock in any position for safe cutting. When the blade gets dull, break off a segment for a sharp, new edge. The Knives accept universal replacement blades and is made from high impact polystyrene for durability. Includes: 1-piece large snap-off knife with 8 sharp points per blade; plus built-in blade breaker.

WRENCHES AND PLIERS CONT'D

Digital Adjustable Torque Wrench

Tightening to true torque when working on mini-splits is serious business. Under tightening could result in refrigerant leaks, while overtightening could mean burst tubing. That's why the hilmor Digital Adjustable Torque Wrench is critical to perfecting torque time and time again. The 9 factory memory settings make it quick to set common torque values, while the digital display shows the amount of force applied to the flare nut. And if that didn't make the job easy enough, lights and buzzers illuminate and sound when the desired torque is achieved.

1963826

hilmor

Features & Benefits
Lighten Your Load: Adjustable jaw eliminates the need to carry around extra heads.
Easy To Use: Nine programmable memory settings allow for quick access to the most common torque levels.
Precise Readings: Digital adjustments help ensure torque measurement accuracy.
Extra Confidence: LED lights and buzzer indicate that desired torque has been reached.

Product Specifications
Jaw Capacity: 1/4" (5mm) to 1-1/16" (27mm) to accomodate up to 5/8" flare nuts
Accuracy: +/3%
Batteries: AA (x2)
Warranty: 2 lbs.

Multi-Function Pliers

The hilmor Multi-Function Pliers bring 5 tools into one! They feature a long nose for grabbing and looping wire. The stripper portion can strip 8 AWG to 18 AWG. The curved cutting blade effectively and efficiently cuts through larger wire sizes. The forged alloy steel provides maximum tool strength and durability and the hot-riveted joint ensures a smooth action and reduced hand wobble.

Features & Benefits
Comfortable Grip: Over-molded handles reduce hand fatigue and won't slip or twist.
Strong Hold: Forged alloy steel with hot rivet joint provides maximum tool strength and smooth action.
Stays Sharp: Wire stripper strips 8 AWG to 18 AWG (solid wire), 10 AWG to 20 AWG (stranded wire).

LINESET CLEANER`

Lineset Cleaner

The hilmor Lineset Cleaner uses a pressurized source to launch a foam puck into the line set to wipe the pipe clean of contaminants and remaining refrigerants.

Features & Benefits

Picture-Perfect Cleaning: Simply connect the correct nozzle, chamber the corresponding pig size, connect to a regulated compressed nitrogen source, and pull the trigger for a perfectly clean lineset.

Twice the Versatility: One tool that has the ability to effectively wipe contaminants and remaining oil from linesets ranging from 3/8" to 7/8".

Premium Care: The rinseable/reusable foam cleaning pigs are specially formulated and manufactured to flow through normal lineset configurations and most deformations.

LEAK DETECTION

Heated Diode Refrigerant Leak Detector

Tight Space? No problem. Find leaks fast with the flexible probe that allows access to all of those hard-to-reach areas.

LDHD250

hilmɘr

Features & Benefits

Added Convenience:	Audible and visual notification.
Easy to Read:	LED screen for easy to read display.
Added Versatility:	Works on all halogenated refrigerants.
Small Space Capable:	Flexible probe allows access to the hard-to-reach areas.

Product Specifications

Contents: 1 - Leak Detector
              1 - Accessory Case
              3 - AA Batteries
Battery Life: 6 hours
Warranty: 2 Year Limited

Technical Specifications

Sensor Type:	Semi-Conductive Sensor (Heated Diode)	Battery Saver:	Automatic Shutdown after 10 Minutes of inactivity
Sensor Life:	5 years (Typical)	Working Time:	6 Hours
Maximum Sensitivity:	(0.14 oz) 4 grams/year	Certifications:	SAE J1627, SAE J2791, SAE J2913,
Response Time:	3 Seconds		EN14624: 2012
Warm-Up Time:	30 Seconds	Refrigerants:	It will detect all halogenated (including
Operating Environment:	32°F (0°C) to 104°F (40°C) at <75% RH		Chlorine or Fluorine) refrigerants.
	(non-condensing)		This includes, but is not limited to:
Display Method	LED Display	Detected:	CFC: R12, R11, R500, R503
Notification Mode	LED Display and Audio		HCFC: R22, R123, R124, R502
Battery	(3) 1.5V AA		HFC: R134A, R404A, R410A, R407C

LDHD250	Heated Diode Refrigerant Leak Detector	10-1/4" x 2-1/4" x 2-1/4"	14 oz. (397g)	EA	1

Infrared Refrigerant Leak Detector

This detector is in it for the long haul. The 10-year sensor life will keep up with all of your daily demands.

LDIR150

hilmɘr

Features & Benefits

Extra Confidence:	Built to last with a 10-year sensor life.
Easy to Read:	The TFT LCD screen provides a clear visual confirmation of the leak location.
Added Convenience:	Audible and visual notification for leak detection.
Added Versatility:	Works on all halogenated refrigerants.

Product Specifications

Contents: Dimensions:
1 - Leak Detector   Length: 7.9"
1 - 10 pack of filters Width: 3.3"
1 - Charger   Height: 1-1/2"
1 - Cable   Weight: 14.6 oz. (415g)
1 - Accessory Case

VACUUM PUMPS

Vacuum Pumps

Your days of messing around with clunky, unreliable pumps are over. These two-stage rotary vane vacuum pumps have been retooled with features to make pulling vacuum down to 25 microns a breeze.

Features & Benefits

Hands-Free Carry: Two durable hoist points make transporting the vacuum pump easier. Compatible with the hilmor HVAC/R Carrying Strap.

Drains Oil Quickly: A sloped and channeled housing helps oil drain fast.

Extra Confidence: A leak-proof valve isolates the pump from the system for accurate vacuum readings and easy oil change without losing a vacuum.

Easy To Check Oil: Quickly identify oil level and detect oil contamination through a large sight glass.

High Efficiency: 2-Stage rotary vane pump achieves a lower vacuum and a higher volumetric flow rate

Vacuum Pump Oil

Working in basements and crawlspaces all day, you're bound to get dirty. And so is your vacuum pump oil. Oil is the lifeblood of a vacuum pump and filters moisture and contaminants from the system. Clean oil means longer life for your pump and deeper, faster vacuum pulls.

RECOVERY MACHINES

Recovery Machine

Pulls like a powerhouse. Lifts like a feather. The recovery machine designed for you.

Features & Benefits

Quick, Easy Access: Conveniently located hose ports make connecting hoses easier and reduces strain

Accurate, Easy to Read: Digital LCD Screen provides accurate and easy to read pressure readings.

Superior Security: High- and low-pressure automatic shutoff protects machine and helps ensure safety.

Convenient Storage: Dedicated power cord wrap protects the cord and secures the plug.

Flex Joint

An accordion style piece of SpeediChannel®, the flex joint can be extremely flexible routing a SpeediChannel® system around virtually any type of obstacle. Each joint is 20" long and can be combined together for longer flex runs. Unlike competitor systems, the DiversiTech flex joint does NOT require the use of a union coupling. The DiversiTech flex joint slides tightly inside the SpeediChannel® system.

230-FJ3

Roof Inlets

"Roof entrance" adapters for linesets are the ultimate solution for a professional flat roof installation. Manufactured from UV weather resistant plastics or painted aluminum, the Roof Inlet combines a series of features:

- The Roof Inlet body part is equipped with a slope avoiding possible damage to the insulation and preventing kinks into the copper tubes.
- The Roof Inlet base holes allow a steady fixation (depending on the roof surface type and composition).
- The Roof Inlet cap is firmly fixed to the body with stainless steel bolts.

VENTILATION PRODUCTS | COMPONENTS & CONSUMABLES

CONCENTRIC VENTS

Concentric Vents

Concentric vents make it easier to have a two pipe installation for high efficiency furnaces. These vents simplify installation and only require one hole through the wall or roof where the pipes terminate. Without using these vents, the installation would require cutting two holes through the home, one for each pipe. These vents save time and money by reducing the amount of work required. Available in 2", 3" or 4" intake vent sizes.

Rooftop Installation

Extended Lengths for Concentric Vents

Concentric vents make it easier to have a two-pipe installation for high efficiency furnaces. These vents simplify installation and only require one hole through the wall or roof where the pipes terminate. Without using these vents, the installation would require cutting two holes through the home, one for each pipe. These vents save time and money by reducing the amount of work required. The extended length of these vents help to maintain clearance above the anticipated snow level to meet local code requirement.

DUCT BOOSTERS

Duct Fans

Features electrical junction box for UL and code compliant electrical connection. An efficient way to increase air circulation, keep room temperatures consistent, and lower heating and cooling costs. Metal construction, powerful no-maintenance motors and a one-use thermal fuse mean these fans will be up to the task for years. Straight forward installation into any 120V system with detailed instructions, templates, and diagrams. Available in many sizes. A great way to give slow vents a boost. Conforms to UL STD 507, Certified to CSA STD C22.2 #113

UV LIGHT SANITIZERS

Pure-Beam™ Ultraviolet Light

Pure Beam™ ultraviolet light is designed for HVAC air disinfection and surface irradiation. The 17 watt UV C lamp is a powerful tool for improved indoor air quality. Installs in the HVAC system or ductwork on either the return or supply air side of the furnace or air handler. DiversiTech's Pure Beam™ ultraviolet light provides a healthier environment in your home, thanks to the germicidal qualities of the UV light spectrum present in the Pure Beam™ light. Ultraviolet light deactivates the DNA of dust mites, bacteria, viruses and other pathogens and destroys their ability to multiply and cause disease. Placement of a Pure Beam™ light in an airstream or near a drain pan can help to decrease the air contamination of any home. Exposure to Pure Beam™ significantly reduces air contamination caused by fungus, mold, and viruses and can cleanse surfaces overcome by mold and slime. Overall size is 14" L x 2" W x 2" H for easy placement. Includes the UV lamp, a UL listed ceramic base, and mounting bracket.

Brass Adapters

The MSA-45 is used on the new R410 Mini Split systems that have the larger unique fitting on the service valve. The description of that fitting is 1/2" Acme Male-20 UN. This adapter will screw onto the 1/2" Acme Male-20 UN fitting and allow you to connect a standard 1/4 service hose to it.

Insta-Charge

Faster, safer and more economical method for charging LIQUID refrigerant through the low pressure side of an air conditioning or refrigeration system, without damaging the compressor. Insta-Charge's unique internal restrictor reduces liquid flow to a level below the capacity of the compressor. Converts liquid refrigerant to a saturated vapor for fast entry. Insta-Charge connects directly to the refrigerant can or cylinder valve. Adds liquid tracing dye faster. Eliminates heating of refrigerant cylinder. Made of light weight aluminum. Sold at a fraction of the cost of other fast charging devices.

LINESETS AND FITTINGS | COMPONENTS & CONSUMABLES

Linesets

DiversiTech Linesets are individually packaged in sturdy corrugated cardboard, designed and tested for individual parcel shipment. Linesets are designed for air conditioning and refrigeration systems. The copper tube is refrigeration grade tubing to ASTM B280. The suction line is pre-insulated with Armaflex AP pipe insulation. This insulation is a black flexible elastomeric thermal insulation. The expanded closed-cell structure makes it an efficient insulation. It is manufactured without the use of CFC's, HFC's or HCFC's. AP Armaflex contains Microban® antimicrobial product protection for added defense against mold on the insulation. DiversiTech Mini-Split Linesets are similar to Standard Linesets but come with additional insulation on the liquid line and flared line ends. Copper tubing complies with ASTM B280 for Seamless Copper Tube for ACR.

AP Armaflex insulation meets ASTM C534, Type I – Tubular Grade 1, ASTM E84, NFPA 255, UL723, CAN/ULC S102, UL94 5V-5A, V-O (E55798), NFPA 90A/90B, UL181, ASTM G21/C1338, ASTM G22, ASTM D1056 2B1, MIL-P-15280J form T, MIL-C-3133C grade SBE3, MEA 96-85-M, and City of LA RR7642.

Lineset Box™

The Lineset Box is a rough-in box for new construction lineset protection for all types of HVAC installations. The architecturally pleasing and professional looking Lineset Box is easy to install and provides superior protection of refrigerant linesets and condensate drain lines. Provides a clean termination point for new construction projects and reserves the bay for the HVAC system installation. The Lineset Box also protects the lineset from damage during construction. It helps to eliminate damage such as kinks that can drastically increase HVAC installation time.

REFRIGERANT TUBING

DiversiTech Tear-Resistant Linesets

Designed for air conditioning and refrigeration systems, the new DiversiTech Tear-Resistant Linesets include a durable flexible polymeric jacket that minimizes insulation damage and easily conforms to bends. Simplifying installation and saving technician time, an expanded closed-cell structure and unique formation resists moisture vapor intrusion and UV damage. No field-applied coating or jacket translates to more installs in a day. Refrigeration grade copper tubing conforms to ATSM B280. These new Tear-Resistant Standard Linesets are available in a wide range of sizes and lengths to serve all standard application requirements.

DUCT STRAPS & HANGING / TAPES AND SEALANTS | COMP. & CONSUM.

METAL DUCT STRAPS

Strapping Hanger Iron

Galvanized 3/4 in. vent strapping, hanger iron, plumber's tape, pipe hanger tape and many other uses. 1/4 in. centers for bolts or nails.

710-A1710

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
710-A1710	Hanger Iron (Galv.) - 10" Rolls - 28 Gauge	EA	50
710-A1650	Hanger Iron (Galv.) - 50" Rolls - 28 Gauge	EA	10
710-A16100	Hanger Iron (Galv.) - 100" Rolls - 28 Gauge	EA	6

Plastic Hanger Strap

Flexible, non-conductive. 3/4" wide x .050" thick. Load tested to 120 lbs.

710-P100

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
710-P100	3/4" x 100' Roll	EA	20

Duct Strap – Metallic – Roll

Galvanized duct strap in a convenient cardboard dispenser is not only easy to drill or nail, but also solid strapping. Plenum rated.

710-001

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
710-001	Metallic Duct Strap - 26 Gauge - 1" x 100'	EA	1
710-002	Metallic Duct Strap - 30 Gauge - 1" x 100'	EA	1

710-005	Metallic Duct Strap - 22 Gauge - 1" x 100'	EA	1

PLASTIC DUCT STRAPS

Plenum Duct Strap – UL Rated

Woven Polypropylene Hanging Straps meet the UL 2043 requirement and are suitable for use in air handling spaces. They have a high tensile strength of 400 lbs minimum and 460 lbs maximum. These straps are resistant to both abrasion and chemicals. They are easy to cut and staple to joists.

- Plenum rated, meets UL 2043 requirement
- High tensile strength
- Resistant to abrasion and chemicals
- Lightweight & easy to cut and staple

710-104

FOAM SEALANT

Foam Sealant

One component closed-cell expanding polyurethane foam sealant for lineal caulking applications. Air-moisture cure. Tack free in 20 minutes; fully cured in 12 hours. Paintable. Use for insulating and sealing around windows, doors, pipes, ducts and vents. Non-toxic when cured. Paint to protect from UV exposure. "R" value 4.7 (1" thickness). Foam contains fire retarding chemical and is U.L. Listed but not rated as a firestop product. Environmental concerns have led us to replace CFC's and HCFC's with hydrocarbon material in our one component foam products. See instructions on each product to ensure safe use and quality results.

01724	Foam Sealant – 20 oz. Can – Yields 460' (3/8" bead)	EA	12

COMPONENTS & CONSUMABLES | TAPES AND SEALANTS

SEALANTS

Wagner Adhesive Sealant

For refrigerant sealing. Eliminates fastener loosening, leakage, and corrosion. Cures between thread flanks to seal against leakage and prevents thread corrosion. Offers sealing with maximum solvent resistance to the action of refrigerant (11, 12 and 22), ammonia and sulfur dioxide. Withstands corrosive liquids used in metal finishings and process industries. Ideal sealant for refrigeration, A/C, and process equipment using corrosive chemicals.

CAS-2712

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CAS-2712	Wagner Adhesive Sealant - 0.34 fl. oz.	EA	12

Fast Cure Epoxy

An easy-to-use, two part putty you simply mix and mold like clay. No complicated weighing or measuring required. Easy 1:1 cut-what-you-need mix ratio. Form it into any shape. It hardens in one hour and makes a final, steel-hard cure in 12 hours and can be sanded, drilled, machined, sawed and painted. Use on metal, wood, brick, stone, concrete, fiberglass, porcelain, tile and mot plastics. Cures under water. 1.0 lb.

Flexi-Patch™

Flexi-Patch™ is an easy to use flexible repair patch ideal for repairing almost any surface. It cures quickly using only UV light from sunlight or a UV flashlight for a long lasting, permanent repair. Flexi-Patch is a fiberglass-reinforced polyester ideal for use on PVC, plastics, metal, wood, concrete and more. It's the easy way to permanently patch almost any surface. It dries hard for permanent repair. Can be drilled, tapped and painted once dry.

FP-36

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
FP-36	Flexi-Patch fiberglass patch	EA	20

Sure-Stick Heavy Duty Adhesive Spray

Wide web spray adhesive ideal for both temporary or permanent bonding. Waterproof, transparent and non-staining. Use for the toughest adhesive applications with leather, cardboard, most plastics, polyethylene sheeting and insulation in HVAC applications. Cleans with mineral spirits. Not for use on vinyl.

315-20

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
315-20	Sure-Stick Adhesive Spray	EA	12

Thread Sealant with PTFE

General purpose sealant with the lubricity of PTFE for metal pipes. Won't shred like PTFE Tape. Allows easy disassembly. Resists common shop fluids. 60° to 400°F temp. resistance.

TAPES AND SEALANTS | COMPONENTS & CONSUMABLES

SEALANTS CONT'D

High Temp Red Silicone Sealant

A one part non-slumping paste that cures to a tough, rubbery solid at room temperature. Formulated to perform at temperatures ranging from -85°F to 500°F for continuous operation, and to 600°F for intermittent exposure. Tack free cure time – 15 minutes. Full cure time – 24 hours.

7-4300

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
7-4300	High Temp Red Silicone Sealant - 10.1 oz. Cartridge	EA	12

25 Year Acrylic Latex Painter's Caulk

For both interior and exterior use. DiversiTech's 25 Year Acrylic Latex Painter's Caulk forms a tough, paintable resilient bond to all building material surfaces. Excellent resistance to water, weathering and moisture vapor.

7-4500

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
7-4500	White Acrylic Latex Caulk - 10.1 oz. Cartridge	EA	12

Pro-Air Industrial Grade Spray Adhesive

A clear, pressure sensitive aerosol adhesive with exceptional tack and shear strength characteristics. An excellent choice for most permanent adhesive applications: duct liner and wrap, sheet aluminum, fiberglass insulation board, and much more. The aerosol package offers a specially designed web spray pattern for even, controlled distribution. Flammability meets aerosol flame extension test requirements. Coverage is approximately 90-100 square feet per pound.

GP1-40BL

INLINE COMPONENTS | COMPONENTS & CONSUMABLES

LINE TAPS

Quick-Tap

Features a valve core in the 1/4" male port. Simply pierce the line and back seat the needle. Flow starts when depressor type charging hose is connected. Flow shuts off automatically when hose is removed. If valve core is not desired, it may be removed. Connect hose, pierce line and back seat needle. This method offers full unrestricted flow. Valve core can be removed or changed at any time without loss of refrigerant if needle is front seated.

QT-1

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
QT-1	Quick-Tap - 1/4", 5/16", 3/8" O.D. Tube Size	EA	1
QT-2	Quick-Tap - 1/2", 5/8" O.D. Tube Size	EA	1

MAC - The Ultimate In-Line Piercing Valves

Install valve. Connect charging hose. Service. That's all there is to it! MAC features uniport: 1 connection for piercing and servicing. Sealed with refrigerant resistant "O" rings. Needle automatically back seats after servicing, leaving line free of restriction. Connect to tubing with 2 socket-head screws. (Hex wrench is included with each valve.) Needle depressor is inserted into head of needle. Wing cap is turned down easily by hand until line is pierced. Wing cap is removed and system may be serviced with any charging hose with built-in depressor. When hose is removed, spring loaded needle back-seats forming a leak proof seal. Needle depressor is discarded and wing cap forms extra precautionary seal.

QTM-1

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.

Suction Line Driers

The solid-core clean-up dryer was developed for use in a system suction line. The compact design incorporates a large outside diameter shell, which results in a shorter lay-in length, and a larger core, which provides a greater filtration area for maximum operating efficiency. The core material has controlled porosity which effectively removes and holds a maximum amount of contaminants with a minimum of pressure drop. It collects and holds inorganic acids and other harmful contaminants from a motor burnout. This binding process protects the core from acid decomposition. Access valves on both the inlet and outlet sides make it easy to measure pressure accurately. Occasionally, enough contaminant matter may collect in the filter core to cause a slight pressure drop. The access valves on the SLD make it easy to determine if a pressure drop exists and to measure the amount of the drop. The original DSLD, solid core, XH-9 molecular sieve dessicant suction line filter dryer. High acid capacity. Low pressure drop – exceptionally high flow rates. Designed for system clean-up. 500 hours salt spray protection. Shortest system cut-out lengths allow installation in tight areas. Two access valves simplify pressure drop measurement. Flare or solid copper sweat fittings.

DRIERS CONT'D

Bi Flow Driers

The "DBF" Series is designed specifically for heat pump or reverse cycle application. External check valves are not required since they are incorporated within the filter dryer shell. The core design filters out contaminant particles down to 25 microns. 100% copper sweat or nickel plated flare fittings. Desiccant core provides reliable and effective, removal of solid contaminants, acid and moisture. Provides three times the filtration as the standard bi-flow. Core is cushioned in fiber gaskets to protect core and to insure trouble-free performance. Powder paint exterior coating surpasses 500 hour ASTM salt spray test and resists corrosion.

Sight Glasses

Sight Glass and Moisture Indicator provides a quick visual diagnosis of refrigerant and moisture levels within a system. The sight glass indicates if the system has the proper refrigerant level, a restricted dryer or excessive pressure-drop. The moisture indicator recognizes moisture within the system. Provides early warning that a potential failure exits resulting in corrosion, chemical damage, restricted flow, or even compressor failure. Etch-resistant glass with a simple color comparison provides easy viewing and quick diagnostics. Flare models feature forged brass body and fittings for corrosion resistance. Sweat models feature copper fittings to permit solder installation without disassembly. Leak-proof design is compact and short in length to easily fit within a unit and provide accuracy in performance.

LABELING AND IDENTIFICATION

DiversiTech Refrigerant ID Labels

Refrigerant labels are designed for proper identification of refrigerant in a recovery cylinder. These 3" x 4" self-adhesive vinyl refrigeration labels use a high-tack acrylic adhesive and UV cured screen printing. Each label indicates the type of refrigerant (eg. R-438A), the chemical name (eg. pentafluoroethane) and the UN No. (eg. UN3163).

• Color coded
• Large and easy to read refrigerant identification
• Durable UV cured screen printed

REFRIGERANT SAFETY CAPS CONT'D

Cop-Cap™ Locking Valve Cover

An effective way to discourage and prevent the removal of refrigerant. Cop-Cap™ fits this standard service valve on all central AC units and mini-splits. It helps prevent access by unauthorized persons and can only be removed with the included special tool. Simply thread Cop-Cap™ assembly onto existing 1/4" flare connection on system and lock set screw in place with hex wrench provided.

VCC-4

• Seals service valve to prevent leaks
• Prevents illegal venting or theft of refrigerant
• Stops unauthorized access in unsecured areas

TUBING INSULATION CONT'D

Self-Sealing Split Tubing Insulation

The Tubolit® semi-slit tubing insulation is made of 100% non-particulating polyethylene foam pipe insulation. Its closed-cell structure won't wick moisture and helps prevent the absorption of condensation that could cause mold to develop over time. It is pre-slit with a factory applied pressure sensitive adhesive to both seam surfaces and has a release liner for easy installation. Available in 3/8", 1/2", 3/4" and 1" wall thickness options with inner diameters from 3/8" to 3-1/8".

DEGREASERS

Heavy Duty Degreaser II

The Heavy Duty Degreaser II is a non-chlorinated, zero VOC formula for cleaning where chlorinated solvents are prohibited. It has a high flashpoint of 180°F. This degreaser effectively removes soils with no residue build-up. Please exercise caution on plastics.

CRC-7-140

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-7-140	Heavy Duty Degreaser II – 15 oz.	EA	12

Chlor-Free® Degreaser

Non-chlorinated degreasing solvent which is used to remove oil, grease and other contaminants. It is especially useful for applications requiring a quick turnaround and where a low flashpoint solvent can be used.

CRC-7Z

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-7Z	Chlor-Free® Degreaser - 14 oz.	EA	12

Citrus Degreaser

The Citrus Degreaser has a new Low VOC Formula. The product removes grease, oil and lubricants with no water wash-off. It evaporates quickly and leaves no residue. The product gives off a pleasant citrus scent and is NSF C1 Registered.

CRC-7PS

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-7PS	Citrus Degreaser – 15 oz.	EA	12

Electronic Degreaser

This Advanced Technology Formula is non-chlorinated, non-conductive, non-corrosive and non-staining. It rapidly dissolves grease, oil and sludge for better efficiency of mechanical equipment. The Electronic Degreaser has no flash or fire point.

CRC-4NU

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-4NU	Electronic Degreaser - 15 oz.	EA	12

HAND CLEANERS

Fast Orange® Hand Cleaner

Three out of five people prefer Fast Orange® over other hand cleaners. The first biodegradable, waterless hand cleaner with aloe, lanolin, and jojoba. Smooth lotion and extra-fine pumice available. USDA Approved.

LUBRICANTS

Knock'er Loose® Penetrating Solvent

An industrial strength, low viscosity penetrant designed to rapidly loosen and free seized, bound or frozen fasteners. This product also quickly permeates rust, scale, gum, grease and corrosion. Independent tests reveal that it outperforms its competition.

CRC-1KB

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-1KB	Knock'er Loose® Penetrating Solvent - 13 oz.	EA	12

Screwloose® Industrial Penetrating Oil

A no compromise penetrant that attacks corrosion to free corroded fasteners and mechanical components. A super fast, powerful, concentrated penetrating solvent that loosens rust scale and corrosion and instantly penetrates minute and tightly fitted crevices.

CRC-8

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-8	Screwloose® Industrial Penetrating Oil - 11 oz.	EA	12

White Lithium Grease

White Lithium Grease has superior lubrication and durability in any weather or temperature. It is useful as a break in lubricant for bearings or as a general purpose lubricant and corrosion inhibitor for tools, machinery and equipment.

CRC-9

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-9	White Lithium Grease - 10 oz.	EA	12

Ultra Lite 3-36® Ultra Thin Non Staining Lubricant

Ultra thin, non staining lubricant that resists oil, dirt and dust build up. This lubricant also seals out moisture and protects against corrosion. It is excellent for drying out electrical components.

CRC-1

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CRC-1	Ultra Lite 3-36® Ultra Thin Non Staining Lubricant - 11 oz.	EA	12

Cutting Oil

Cutting Oil is a superior thread cutting lubricant for use on all types of metals, including brass, copper and aluminum. For use on ferrous and non-ferrous metals. Clings to vertical surfaces for improved performance.

COVERALLS

KLEENGUARD®

KleenGuard® Personal Protective Equipment (PPE) enables rather than inhibits – allowing for maximum productivity and safety for you and your employees. When you're looking for an economical way to help protect your workers during potentially hazardous tasks, the Kleenguard brand A35 Disposable Coveralls, for Liquid and Particle Protection, are an excellent choice.
- Microporous film-laminated material helps protect against hazardous liquids (splashes) and dry particles (like dust and dirt)
- This protective suit has a zipper front and open wrists and ankles
- Available in sizes Medium to 3XL, meets ANSI / ISEA 101- 1996 standards
- PPE for hazardous liquid handling, pressure washing, maintenance, industrial / general manufacturing
- Meets American National Standards Institute and International Safety Equipment Association ANSI/ISEA 101-1996 sizing standard

INSECT KILLERS

Sting Less Wasp & Hornet Killer

Kills wasps, hornets and yellow jackets. Very fast-acting when insects are hit directly. Allow approximately 24 hours for those that were not directly hit. This container delivers a 20-foot jet blast to knock down the insects and allow for the user to remain at a safe distance.

436-20

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
436-20	Sting Less Wasp & Hornet Spray - 14 oz. Aerosol	EA	12

Wasp & Hornet Killer

Enforcer® Wasp & Hornet Killer shoots a 20-foot jet blast for instant knockdown of wasps, hornets, and yellow jackets. Enforcer® Wasp & Yellow Jacket Foam is a 20-foot blast of blanketing foam that plugs yellow jacket holes and clings to wasp and hornet nests, preventing their escape.

COIL CLEANERS

MasterCare® Triple-D® Universal Coil Cleaner

MasterCare® Triple-D® is the ultimate universal coil cleaner that can be used on condensers, evaporators, microchannels, roof-top units, and mini-split applications. The triple active synergistic highly effective solution is formulated to remove a broad range of soils while degreasing and deodorizing. It is ideal for cleaning most metals including aluminum and copper while extending equipment life and diminishing the potential for refrigerant leaks. Using 75% less than comparable products, it reduces the amount of solution needed to clean. Triple-D® is biodegradable, NSF approved and available in a variety of packaging configurations.

TRIPLE-D
MasterCare

TRIPLE-D-RTU	MasterCare® Triple-D® - 1 Qt. Pre-Mixed Sprayer	EA	12

Eco-Coil™ Environmentally Friendly Coil Cleaner

Eco-Coil™ is an environmentally friendly no rinse non-corrosive cleaner ideal for evaporator and condenser coils, electronic and permanent filters, fan blades, grilles, mini-split and microchannel applications. Eco-Coil quickly cleans away dirt, dust, and deposits while deodorizing with no harmful risks to animal, aquatic or plant life. Tested to provide the highest level of performance, Eco-Coil not only reduces the number of products required to clean but also has different water mixture ratios to maximize solution usage. Furthermore, it brightens, biodegradable, NSF approved, and meets the EPA's Design for the Environment Alternative Program as a "green" product.

ECO-COIL	Eco-Coil™ Environmentally Friendly Coil Cleaner - 1 Gallon Container	EA	4
ECO-COIL-AER	Eco-Coil™ - 19 oz. Aerosol	EA	1

MasterCare® Pro-Brown™

MasterCare® Pro-Brown™ is a heavy duty alkaline cleaner that pulls out deeply embedded dirt removing greasy soils and oxidation while brightening and cleaning coils. Ideal for air-cooled condensers and mini-splits thanks to its dual action foaming capabilities. It is biodegradable.

PRO-BROWN

MasterCare

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
PRO-BROWN	MasterCare® Pro-Brown™ Foaming Coil Cleaner - 1 Gallon Container	EA	4

ALUMINUM LOSS OF FOAMING COIL CLEANERS VS. TRIPLE-D™

Conventional foaming acid and non-acid coil cleaners attack and chemically react with the aluminum coil components. This reaction is exhibited by a foaming action. The attack/reaction dissolves the aluminum, destroying the heat-transfer ability of the coil and creating the potential for refrigerant leaks.

MasterCare® Pro-Blue™

MasterCare® Pro-Blue™ is a heavy foaming alkaline-based solution designed for condensers and mini-splits that penetrates dirt and grease removing deposits resulting in clean and brightened coils. Pro-Blue is biodegradable, NSF approved, and available in numerous packaging configurations.

PRO-BLUE

MasterCare

COIL CLEANERS CONT'D

MasterCare® Pro-Red Plus™

MasterCare® Pro-Red Plus™ is a fast acting cleaning solution for condensers, microchannels, and mini-splits that foams and lifts away stubborn deposits including tarnish and corrosion. Its corrosion inhibitors protect even sensitive metals like aluminum and copper. Its non-acid formula is as effective as conventional acid cleaners without the use of hydrofluoric acid. The vigorous foaming action eliminates the need for prolonged soaking, steam cleaning or scrubbing coils and without emitting corrosive fumes or rusting ferrous metals. Pro-Red Plus™ is biodegradable, NSF approved, and available in a number of convenient packaging solutions.

PRO-RED+
MasterCare

PRO-RED+5	MasterCare® Pro-Red Plus™ - 5 Gallon Pail	EA	1

Coil Guard™

Ideally used in coastal areas, where salt air accelerates rust and decay. Highly recommended for use in all geographical areas to prolong the life of a unit. When applied properly, Coil Guard™ dries quickly and immediately resists salt spray, acids, and soap solutions. Weather will not blacken it. Coil Guard™ has high dielectric properties and has no effect on heat transfer. Our blue tinted product is used to ensure complete coverage of coating.

CG-AER

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
CG-AER	Clear Coil Guard™ - 20 oz. Aerosol	EA	12
CGB-AER	Blue Coil Guard™ - 20 oz. Aerosol	EA	12

Cool-Weld™ Heat Barrier Spray

Spray on thick gel formula that protects surfaces from heat and damage. Odorless, non-toxic gel coats rubber, plastic, and painted surfaces to shield them during welding or soldering.

COOLWELD-32

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
COOL-WELD-32	Cool-Weld™ Heat Barrier Spray - 32 oz. Container	EA	12

Foam-Plus™ Aerosol Foaming Coil Cleaner

Heavy-duty foaming detergent coil cleaner in an aerosol can. Non-flammable and water-based with no chlorinated solvents. Blasting foam stream reaches into tight areas for maximum cleaning. The foaming alkaline detergent quickly liquifies dirt, grease, oil or other residue and is completely self-rinsing on condensate producing coils.

358-20

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
358-20	Foam-Plus™ Foaming Coil Cleaner - 19 oz.	EA	12

MasterCare® Pro-Yellow™

MasterCare® Pro-Yellow™ is a powerful cleaner ideal for condensers, microchannels, and mini-splits that targets large concentrations of dirt and grime. With its heavy foaming alkaline-based solution, debris will be removed from the coil while providing excellent brightening. Pro-Yellow is biodegradable and available in a number of packaging solutions.

PRO-YELLOW
MasterCare

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
PRO-YELLOW	MasterCare® Pro-Yellow™ (non-toxic) - 1 Gallon Container	EA	4

MasterCare® Pro-Kleen™

A unique foaming acid coil cleaner designed to replace hazardous hydrofluoric acid coil cleaners. It contains a synergistic combination of mineral acids, corrosion inhibitors, biodegradable surfactants, penetrants, and degreasers that emulsify, solubilize and neutralize soils leaving a clean, bright, efficient coil surface.

PRO-KLEEN
MasterCare

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
PRO-KLEEN	MasterCare® Pro-Kleen™ Outdoor Coil Cleaner - 1 Gallon container	EA	4

Pan-Patch™

Pan-Patch™ is a two part epoxy coating designed for HVAC applications. It is a self leveling formula that is ideal in a damp or wet environment. Pan-Patch™ resists corrosion and stops pan leaks without replacing the pan. Light gray in color, one gallon covers about 160 square feet with 10 mil thickness.

SYSTEM FLUSHES

Pro-Flush® HVAC Flushing Solvent

A flushing solvent for A/C and refrigeration systems formulated for R410A retrofits, refrigerant conversions and compressor burnouts. Compatible with all refrigerants and compressor oils. All solvents in Pro-Flush® conform to EPA SNAP standards, and are low toxicity and residue free. Available as a kit or in an 8 or 16 oz. solvent refill. The kit makes servicing quick, easy, and safe, as well as assuring you get to the job site with all necessary hardware in hand for 1 stop servicing. The kit includes: 8 oz. container of Pro-Flush® solvent, refillable Pro-Flush® injector tool pressure tank, pressure relief valve for added safety, large rubber adapter that flushes up to 1-1/4" line sets, service hose.

MasterCare® LeakArmor™ Flex Shot™

MasterCare® LeakArmor™ Flex Shot™ hoses and inject adapters are the fastest, most effective proven way to permanently seal and prevent minor air conditioning and refrigeration (AC/R) leaks. With no tools or gauges required, the Flex Shot sealant works by traveling through the system in the gas phase with the oil and refrigerant fixing leaks immediately. Flex Shot works with all compressors, heat pumps, condensers, and other system components with 1/4" SAE high- and low-side service ports. It will not plug up manifold gauges, metering devices, thermostatic expansion valves (TXVs), pistons or cause cap tube blockages. It meets the ASHRAE ARI 700 refrigerant standard and is compatible with any refrigerant including R-410A with no pump downs or recoveries required. Flex Shot is suitable for use in aluminum and copper coils and is microchannel friendly. 0.3 oz single use hose.

SYSTEM ADDITIVES

Acid Eliminator

Keeps acid away; compatible with all refrigerants and oils. Chemically neutralizes and prevents acids that are formed in air conditioning and refrigeration systems due to refrigerant and refrigeration oil break-down, moisture, and compressor burnout. Easy-to-use, no complicated charts. Works fast, circulates quickly, and leaves no solids or solid residuals. Will not harm system components. Can prevent system breakdown.

ACID-ELIM

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
ACID-ELIM	Acid Eliminator - 4 oz. Plastic Bottle	EA	12

MasterCare® Boost Juice® Performance Enhancer

MasterCare® Boost Juice® is an HVAC/R system performance improvement additive that lowers energy costs by reducing the amperage draw up to 22% (testing average of 13%) on a system when running. It does this by lubricating the components, removing moisture and oxygen, and dissolving particle debris to a molecular level. This debris is captured in the liquid line drier reducing drag and friction for the refrigerant and oil. By using Boost Juice, your customers can expect to see noticeable improvements in system performance typically within 24 to 72 hours (depending on the state of the system – new versus old) with consistent performance. Noise levels will also be reduced once Boost Juice is installed providing a long-term benefit to your customers.

DEODORIZERS

Duct-Fresh™ Gel

A non-toxic, super-effective odor neutralizer for HVAC ducts, proficient at destroying stubborn odors including pet, smoke, and musty smells in residential, industrial and commercial applications. Effective for up to 6 months.

DUCT-FRESH-8

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
DUCT-FRESH-8	Duct-Fresh™ Gel - 8 oz.	EA	12
DUCT-FRESH-16	Duct-Fresh™ Gel - 16 oz.	EA	8
DUCT-FRESH-40	Duct-Fresh™ Gel - 40 oz.	EA	8

The Purifier™

The Purifier™ is an electric device that removes stubborn odors like tobacco smoke. It eliminates mold, mildew and bacteria from HVAC systems, using the latest in ozone purification technology. The Purifier™ completes most jobs in just 20 minutes. Includes programmable timer with LCD display.

170AIR

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
170AIR	The Purifier™ Fresh Air Ozone Machine	EA	1
170AIRFAN	Replacement Fan	EA	1
170AIRPCB	Replacement Circuit Board	EA	1
UVEC-07G	12V Charger for Cigarette Lighter	EA	1
410212	Replacement UV Bulb	EA	1

Duct-Fresh™ Spray

A non-toxic, instantaneous, super-effective odor neutralizer for HVAC ducts. Destroys stubborn pet odors, smoke, and musty smells in residential, industrial and commercial applications. Great for spot-treating malodor problem areas.

DUCT-FRESH-32

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
DUCT-FRESH-32	Duct-Fresh™ Spray - 1 Quart	EA	12

Odor-Aid™

Cleans and deodorizes with an easy pump spray. Eliminates offensive odors from coils and ducts.

171AIR

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
171AIR	Odor-Aid™ - 7 oz. Bottle with Spray Top	EA	12

DISINFECTANTS

Sani C-N-D™ Coil and Drain Pan Disinfectant

EPA REGISTERED

Sani C-N-D™ is an EPA registered disinfectant, fungicide, mildewstat and viricide. It is ready-to-use and assures consistent, effective results. Sani C-N-D™ destroys "dirty sock," mildew and other malodors.

SANI-CND

CATALOG NO.	DESCRIPTION	UOM	ORDER MUL.
SANI-CND-32	Sani C-N-D™ Disinfectant - 32 oz. Container	EA	12
SANI-CND	Sani C-N-D™ Disinfectant - 1 Gal. Container	EA	4

GLYCOLS

DiversiTech produces a complete line of industrial coolant and heat transfer products in the HVAC/R Industry. Our product line includes ProTek PG propylene glycol products formulated with food-grade corrosion inhibitors and ProTek EG ethylene glycol products for industrial applications. Both product groups are designed to provide freeze and burst protection and are formulated with inhibitors and antifoam agents to provide long-term stability against system corrosion and fouling.

ProTek EG™

An inhibited ethylene glycol based heat transfer fluid designed for use in hydronic, chilled and closed water.

EG

CATALOG NO.	DESCRIPTION	GYCOL/WATER RATIO	UOM	ORDER MUL.
EG	ProTek EG™ - 1 Gallon Jug	95/5	EA	4
EG-5	ProTek EG™ - 5 Gallon Pail	95/5	EA	1
EG-55	ProTek EG™ - 55 Gallon Drum	95/5	EA	1

ProTek PG 100™

ProTek 100™ is an inhibited propylene glycol based industrial heat transfer fluid and antifreeze that contains food grade corrosion inhibitors. It is suitable for use in potable water systems. ProTek 100™ is designed to provide freeze and burst protection, excellent thermal conductance, protection against corrosion and fouling and long term stability in closed recirculating water loops. ProTek 100™ provides burst protection to 100°F. Freeze points and burst points are controlled by the propylene glycol to water ratio.

PG-100

CATALOG NO.	DESCRIPTION	GYCOL/WATER RATIO	UOM	ORDER MUL.
PG-100	ProTek-100™ - 1 Gallon Jug	70/30	EA	4
PG-100-5	ProTek-100™ - 5 Gallon Pail	70/30	EA	1
PG-100-55	ProTek-100™ - 55 Gallon Drum	70/30	EA	1

ProTek PG Plus™

ProTek PG PLUS™ is an inhibited propylene glycol based industrial heat transfer fluid and anti freeze that contains food grade corrosion inhibitors. It is suitable for use in potable water systems. ProTek PG PLUS™ is designed to provide freeze and burst protection, excellent thermal conductance, protection against corrosion and fouling and long term stability in closed recirculating water loops. ProTek PG PLUS™ must be mixed with water to provide freeze and burst protection. Freeze points and burst points are controlled by the propylene glycol to water ratio.

PG-PLUS

INDOOR AIR QUALITY

INDOOR AIR QUALITY - RESIDENTIAL

INDOOR AIR QUALITY

COIL AND AIRSTREAM DISINFECTION

APCO-X

APCO-X is the result of more than a decade of development and is our most advanced indoor air treatment system and is 30% more effective than our original APCO. It combines UVC light with our EverCarbon™ catalyst to safely & effectively neutralize odor-causing VOCs and biological contaminants. It not only treats the air but also helps keep the HVAC system clean and efficient and extend it's life. Dual systems include a second remote-mounted UV light typically mounted at the coil. Validated to UL2998 for zero ozone. Includes lifetime warranty.

TUV-APCOX-ER3

CATALOG NO.	ELECTRICAL	UV LAMP	LAMP LIFE	UOM	ORDER MUL.
TUV-APCOX-ER3	18-32 VAC	TUVL-315	3 Years	EA	1
TUV-APCOX-DER3 (Dual System)	18-32 VAC	TUVL-315 (2)	3 Years	EA	1
TUV-APCOX-SI3-P	110-277 VAC	TUVL-315	3 Years	EA	1
TUV-APCOX-DI3-P (Dual System)	110-277 VAC	TUVL-315 (2)	3 Years	EA	1

APCO-X MAG

APCO-X MAG combines UVC light combines UVC light with our EverCarbon™ catalyst to safely & effectively neutralize odor-causing VOCs and biological contaminants. It features a 110 lb. rubber coated antivibration magnet for mounting inside air system. It not only treats the air but also helps keep the HVAC system clean and efficient and extend it's life. Dual systems include a second remote-mounted UV light typically mounted at the coil. Validated to UL2998 for zero ozone. Includes lifetime warranty.

TUV-APCOX-MAG11-ST3	110-277 VAC	TUVL-315	3 Years	EA	1

APCO

The original APCO system cleans the air by combining UVC light and activated carbon; two technologies proven to be most effective at neutralizing germs, and odor-causing by reducing chemical vapors known as volatile organic compounds (VOCs). It also helps keep the HVAC system clean and efficient and extend it's life. Dual systems include a second remote-mounted UV light typically mounted at the coil. Validated to UL2998 for zero ozone. Includes lifetime warranty.

TUV-APCO-ER2

AHU Series 1

The AHU Series 1 germicidal UV light system is installed in the central air system where it neutralizes mold, viruses and bacteria. It also suppresses mold growth on the cooling coils and surrounding areas while generally improving indoor air quality throughout the home. It features a water-tight commercial grade power supply and is available in single & dual lamp configurations for comprehensive UV light disinfection. Validated to UL2998 for zero ozone. Includes lifetime warranty.

About DiversiTech

Founded in 1971, DiversiTech® Corporation is North America's largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVAC/R) industry. Headquartered in the Atlanta, Ga. metropolitan area, DiversiTech's mission for its wholesaler partners is to simplify their work. The Company is focused on growth through internal product development, external partnerships, and acquisition. Manufacturing a suite of products, which includes a wide range of mechanical, electrical, chemical, and structural parts for HVAC/R systems, DiversiTech brings unparalleled scaling capabilities and supplier expertise. The Company holds numerous patents and operates an advanced R & D materials division dedicated to bringing more value to its customers. The Company maintains over 1 million square feet of manufacturing and distribution space in key U.S., Canadian and European locations. DiversiTech has enjoyed a continued history of successful growth and has acquired industry recognized brand names including hilmor®, Imperial®, Quick-Sling®, UltraLite®, Spin® Tools, SpeedClean®, and Fresh-Aire UV®.
